

EGT Diamond System - Concrete Polishing - Dry Process

 It's a System
Not a Machine

Brand: Substrate Technology, Inc.

Weight: 1.00lb

Dimensions: 3.00in x 3.00in x 1.00in

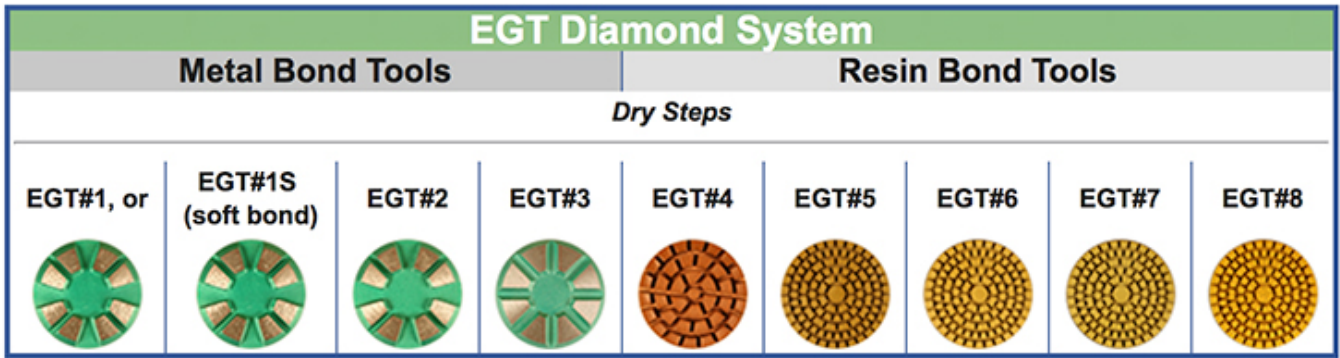

Short Description

- For dry concrete polishing only
- Coordinated metal and resin bonded diamond system (steps #1-#8)
- 3-inch diameter
- Creates a highly polished concrete floor
- Color: green

Description

EGT Diamond System - Concrete Polishing (Dry Process)

The EGT Diamond System is a coordinated metal and resin bonded diamond system to perform highly polished concrete using any of the eight models of Prep/Master[®] machines. The EGT Diamond System is **only to be used dry** and in sequence as numbered by tools #1 through #8. All tools are painted green or use green velcro backings to indicate a matched system.

EGT #1 or #1S, & #2

These are metal bond tools that have the same face design and can be clearly identified by the number on back as "#1" and "#2." Both tools feature the patented EG attachment system. The EGT #1 tool comes in regular or soft bond for differing flooring hardnesses.

- Approximate life of #1 is 30,000 SF (3,000 M²) for all P/M Machines except 4430 (P/M Machine 4430 life expectancy is 40,000 SF (4,000 M²))
- Approximate life of #2 is 35,000 SF (3,500 M²) for all P/M Machines except 4430 (P/M Machine 4430 life expectancy is 47,000 SF (4,700 M²))

EGT #3

This is a metal bond tool that has the pictured face design and can be clearly identified by the number on back as "#3." This tool features the patented EG attachment system.

- Approximate life of #3 is 35,000 SF (3,500 M²) for all P/M Machines except 4430 (P/M Machine 4430 life expectancy is 47,000 SF (4,700 M²))

EGT #4

This is a 3" resin bonded tool that has the pictured face design and can be clearly identified by the number on back as "#4." This tool features green Velcro backing.

- Approximate life of #4 is 20,000 SF (2,000 M²) for all P/M Machines except 4430 (P/M Machine 4430 life expectancy is 26,500 SF (2,700 M²))

EGT #5, #6, #7, & #8

#5, #6, #7 & #8 are 3" resin bonded tools that have the pictured face design and can be clearly identified by the number on back as "#5," "#6," "#7," "#8." These tools feature green Velcro backing.

- Approximate life of #5, #6, and #8 is 12,000 SF (1,200 M²) for all P/M Machines except 4430 (P/M Machine 4430 life expectancy is 16,000 SF (1,600 M²))
- Approximate life of #7 is 10,000 SF (1,000 M²) for all P/M Machines except 4430 (P/M Machine 4430 life expectancy is 13,300 SF (1,300 M²))

Specification

| Item Numbers | |
|--------------|----------------------------------|
| Item # | EGT #1: 540574001 (regular bond) |
| Item # | EGT #1S: 541402000 (soft bond) |
| Item # | EGT #2: 540578002 |
| Item # | EGT #3: 540591503 |
| Item # | EGT #4: 540760004 |
| Item # | EGT #5: 540800005 |
| Item # | EGT #6: 540800006 |
| Item # | EGT #7: 540800007 |
| Item # | EGT #8: 540800008 |
