

# CLC Diamond System - Concrete Polishing - Wet-Dry Process

**Brand:** Substrate Technology, Inc.

**Weight:** 1.00lb

**Dimensions:** 3.00in x 3.00in x 1.00in

## Short Description

- For wet-dry concrete polishing only
- Coordinated metal and resin bonded diamond system (steps #1-#7)
- 3-inch diameter
- Creates a highly polished concrete floor
- Color: Red

## Description

### CLC Diamond System - Concrete Polishing (Wet-dry Process)

The CLC Diamond System is a coordinated metal and resin bonded diamond system to perform highly polished concrete using any of the eight models of Prep/Master<sup>®</sup> machines. The CLC Diamond System is only to be used dry for step #1, wet for steps #2, #3 & #4 and dry for steps #5, #6 & #7 and in sequence as numbered by tools #1 through #7. All tools are painted red or use red Velcro to indicate a matched system.

CLC Diamond System						
Metal Bond Tools		Resin Bond Tools				
Dry Step	Wet Steps				Dry Steps	
CLC#1	CLC#2	CLC#3	CLC#4	CLC#5	CLC#6	CLC#7
						

All tools on this page are built with the patent pending *EG Quick Change System (Patent 8,192,255)*.

## CLC #1

This is a metal bond tool painted red that has pictured face design and can be clearly identified by the number on back as "#1." This tool features the patented EG attachment system. The tool is run dry.

- Approximate life of #1 is 30,000 SF (3,000 M<sup>2</sup>)

## CLC #2

This is a metal bond tool painted red that has pictured face design and can be clearly identified by the number on back as "#2." This tool features the patented EG attachment system. The tool is run wet.

- Approximate life of #2 is 30,000 SF (3,000 M<sup>2</sup>)

## CLC #3

This is a 3" resin bonded tool that has the pictured face design and can be clearly identified by the number on back as "#3." This tool features red Velcro backing. The tool is run wet.

- Approximate life of #3 is 15,000 SF (1,500 M<sup>2</sup>)

## CLC #4

This is a 3" resin bonded tool that has the pictured face design and can be clearly identified by the number on back as "#4." This tool features red Velcro backing. The tool is run wet.

- Approximate life of #4 is 15,000 SF (1,500 M<sup>2</sup>)

## CLC #5, #6, & #7

These are 3" resin bonded tools that each have the pictured face design and can be clearly identified by the number on back as "#5", "#6" & "#7." These tools feature red Velcro backing and are run dry.

- Approximate life of #5 & #7 is 12,000 SF (1,200 M<sup>2</sup>) each
- Approximate life of #6 is 10,000 SF (1,000 M<sup>2</sup>) each
